ER 9-9855

3 January 1958

MEMORANDUM FOR: Executive Secretary,
CIA Career Council

SUBJECT: Proposed Regulation [REDACTED] "Training at Non-
CIA Facilities under Public Law 110"

25X1A

The DD/I concurs in subject regulation, however, believes that the following comments may help to clarify certain portions:

1. Para. 1 - POLICY should also include a statement that the individual receiving non-CIA training should have declared his intention to become a member of the Career Staff if not already so.

2. Suggest that para. 1 a (3) end with the word responsibilities and that para. 1 a (4) be reworded as follows: "whose specific job assignment within the Agency on completion of training has been planned for by the Career Service concerned." ✓

3. It is recommended that para 2 a (3) read "Prescribe the administrative conditions including security and cover governing participation of Agency personnel in programs at non-CIA facilities."

4. Para. 2 c (1) might better read "Review and recommend approval or disapprove requests of Career Service designees for training at non-CIA facilities." (It might also be helpful to add here a sentence indicating that heads of career services have ~~are~~ responsibility for designating individuals for this type of training when they deem it necessary. ((
